The Model 200 is sized and priced for entry level or small production operations. Its capacity is up to 500 pounds per hour depending on bread type and condition. Safety is a prime consideration so the blades stop each time the loaf is loaded as the safety guard opens and starts as the guard closes. The "200" is the first step in the UBE line of dicers with other capacities of 1000, 2500 and 4000 pounds per hour input

## Specifications

### Capacity

200-500 pounds per hour input
