way depending on layout

Features

- Designed to allow bread not intended for double bagging to "pass thru" onto the palletizing station.
- Suitable for use at the discharge of your bread bagger as a permanent location or it may also be portable.
- Products are bagged with the "tails in" or "tails out" to suit buyers marketing and layout needs.

- Bag closing may be by a twist tie, plastic tab, or heat sealer.
- Design to be simple and easy to use, automatic or hand fed, portable or stationary.

Technical Layout:
